ABOUT THE CONGRESS

The European Halal Congress, held on June 9 and 10, 2026 in Sarajevo, is a leading scientific and professional forum for the halal sector in Europe. The organizer is the Agency for Halal Quality Certification, an institution with extensive experience in developing and implementing halal standards.

The Congress is co organized with Halal Control GmbH (Germany), the Faculty of Technology at the University of Tuzla, and the Faculty of Islamic Studies at the University of Sarajevo, with support from the Standards and Metrology Institute for Islamic Countries, OIC SMIIC.

The Congress convenes key stakeholders across regulation, certification, academia, and industry to address current challenges and contribute to the future of halal standardization and production. Program themes include food safety, quality and traceability systems, pharmaceutical and cosmetic production, innovative analytical methods, and alignment with global norms and market requirements. Special attention is given to scientific papers and professional analyses that translate into practical improvements in company operations.

Over the years, the European Halal Congress has become a reference platform for exchanging knowledge and building professional and business partnerships. Its strength lies in connecting science and industry and enabling dialogue on the future of the halal market in Europe and globally.

WHY SPONSOR?

The 4th European Halal Congress is a key European platform where academia, regulatory institutions, accreditation bodies, halal certification bodies, and industry meet to exchange expertise, strengthen networks, and advance the future direction of the halal sector.
